

Modular Pumptrack Speed Ring

1_03

Data Sheet

Design

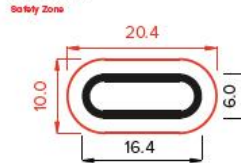

The Modular Pumptrack system consists of 11 perfectly designed and engineered modules. Combined each configuration offers a perfect progressive riding track for fun on bikes, scooters, skateboards and blades. The Speed Ring is addictive, in a good way, as you build up speed on each round. The Speed Ring has 1 alternative configuration. Additional modules can be added to create new configurations as desired.

Materials

Built in an environment with high quality control standards.
Proprietary reinforced fiberglass non-slip riding surface.
17mm exterior premium European Birch film faced plywood.
